RELAX

ALL WORK AND NO PLAY... LES FONTAINES WAS CREATED BY THE ROTHSCILDS FOR LEISURE, USED BY THE JESUITS FOR STUDY, REINVENTED BY CAPGEMINI FOR BOTH.

After a day of meeting and reflection, Les Fontaines lets its guests relax, socialize, enjoy a well-deserved break. The venue has several lounges, each with a distinctive atmosphere:

/ the Forum Bar, for a quick informal drink.
/ in the Château: the Salon with its grand piano, the Bar & Lounge, and the Winter Garden of the Baroness.

And in the milder months, informal discussions continue on the terraces and rooftops.

THINK

FROM THE ROTHSCILDS TO THE JESUITS, TWO CENTURIES OF INTELLECTUAL PURSUITS. "IL EST DES LIEUX OÙ SOUFFLE L’ESPRIT”

Designed by the landscape architect Berthaud in the late 18th century, the northern part of the park – surrounding the lake – was planned as an English Garden adorned with small factories.

With the Rothschilds, in the late 19th century, the Domain acquired its present size (130 acres). Its diverse landscape and its Château, an architectural folly built on a metal structure similar to that of the Eiffel Tower.

Made famous by the Society of Jesus in the 20th century, the Les Fontaines Cultural Center was patronized by many representatives of the international civil and spiritual society.

Reconstructed and restored by the Capgemini Group in the early 21st century, Les Fontaines pursues the lofty goals of its previous owners: To revitalize and federate talent, facilitate multidisciplinary exchanges, stimulate commitment and innovation for participants from across the world.
